The Oscars

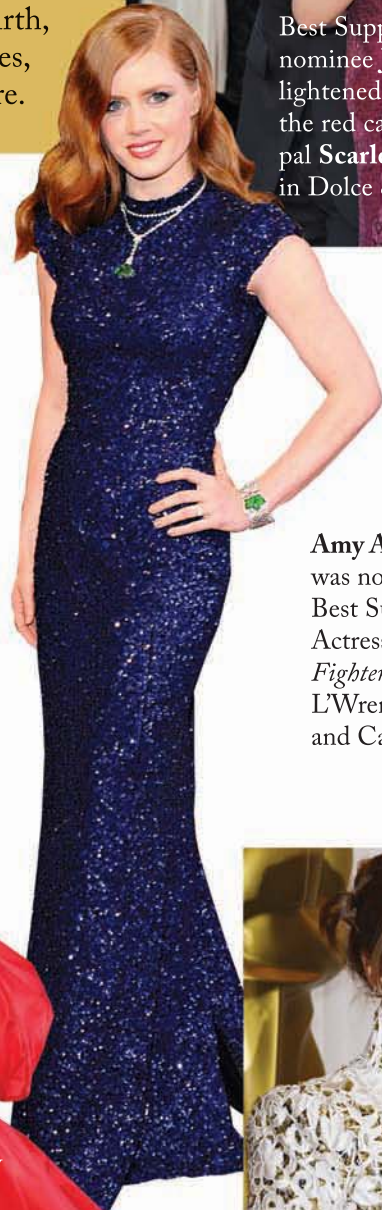

The stars put forth their best style and glamour for Hollywood's biggest night. Hosted by Anne Hathaway and James Franco, the show gave its top honors to Natalie Portman and Colin Firth, who won in the Best Actress/Actor categories, and *The King's Speech*, which won Best Picture.

Best Supporting Actor nominee **Jeremy Renner** lightened things up on the red carpet with his pal **Scarlett Johansson**, in Dolce & Gabbana.

A very pregnant **Natalie Portman** looked beautiful in her purple Rodarte dress and Tiffany & Co. jewels as she accepted her Best Actress award for *Black Swan*.

Amy Adams, who was nominated for Best Supporting Actress for *The Fighter*, wore a navy L'Wren Scott dress and Cartier jewels.

Javier Bardem, nominated for Best Actor for *Biutiful*, walked the carpet with his wife, **Penélope Cruz**, who looked stunning in her L'Wren Scott, despite having their baby, Leo, only weeks ago.

Anne Hathaway, who hosted the awards show with **James Franco** (to mixed reviews), had eight dress changes for the night but wore a vintage red Valentino on the red carpet.

Melissa Leo clutches the Best Supporting Oscar she won for *The Fighter*.

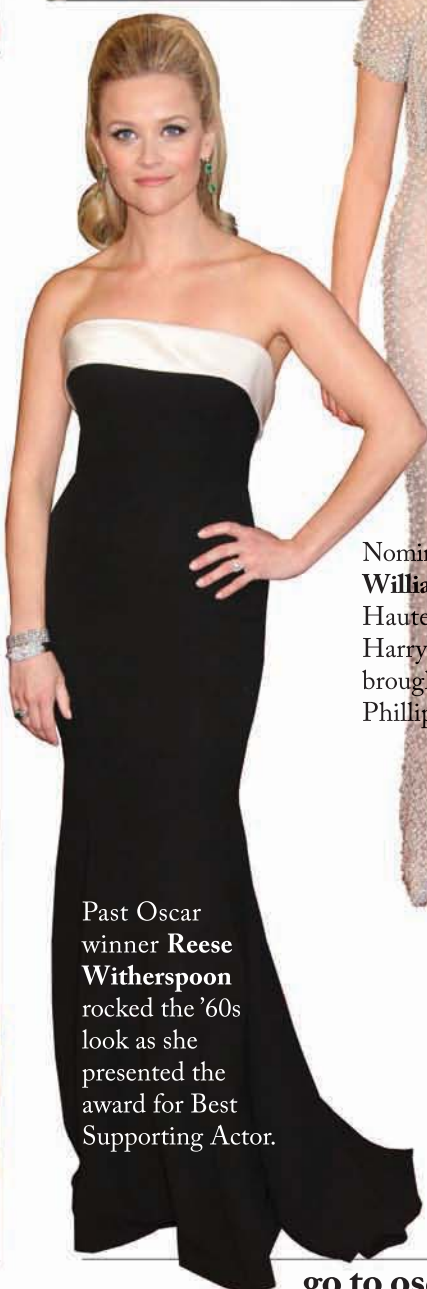

Colin Firth, as expected, won for Best Actor for his amazing performance in *The King's Speech*, which also won Best Picture.

Christian Bale won for Best Supporting Actor for his role in *The Fighter*.

Jesse Eisenberg was hoping to take home the top prize for his role in *The Social Network*, but lost to Christian Bale.

Past Oscar winner **Reese Witherspoon** rocked the '60s look as she presented the award for Best Supporting Actor.

Nominee **Michelle Williams**, in Chanel Haute Couture and Harry Winston jewels, brought her friend Busy Phillips as her date.

Nominee **Jennifer Lawrence**, of *Winter's Bone*, channeled old Hollywood glam with a simple yet sexy red Calvin Klein dress.

Black Swan's **Mila Kunis** was hard to miss in her romantic lavender Elie Saab dress.

A photograph of Katy Perry and Russell Brand on a red carpet. Katy Perry is on the left, wearing a red and white striped strapless dress, smiling and looking towards the camera. Russell Brand is on the right, wearing a grey and white patterned blazer over a white shirt and a dark tie, looking towards Katy. They are standing in front of a green wall with large white letters. The text 'BRAND POWER' is overlaid in large white letters across the middle of the image.

BRAND POWER

*Are Katy Perry and Russell Brand
Hollywood's next power couple?*

Photo: Keystone Canada

Katy Perry and Russell Brand are fast becoming a Hollywood super couple. Perry, who climbed her way to the top of the music charts with hits like “I Kissed a Girl,” “California Gurls” and “Firework” has quickly become one of pop’s reigning princesses, while the British Brand (formerly a TV presenter) has made a huge splash this side of the pond with his quirky, sometimes lewd, sense of humor in such films as *Forgetting Sarah Marshall* and *Get Him to The Greek*.

Maybe it’s her hubby’s influence, but Perry is not only expanding her entertainment career into the world of beauty (she recently released her first fragrance, Purr) but is now making her way onto the big screen as well. You won’t actually see Perry herself appear, but you’ll hear and recognize her sweet sound as she lends her voice to one of cartoons’ favorite female characters, Smurfette, in the upcoming movie *The Smurfs*.

“I’ve never seen an episode [of *The Smurfs*], because my parents wouldn’t let me,” Perry, who grew up in a strict religious household with her freelance minister parents, told *MTV News*. “My mom thought that Smurfette was a little bit slutty, being the only female in the village. And now I showed her. I called her up and was like, ‘Guess what, Mom: I’m Smurfette!’”

Brand is also getting set to launch two movies in April. He’ll voice the character of the Easter Bunny in *Hop*. In the movie, an out-of-work slacker named Fred (played by James Marsden)

accidentally injures the Easter Bunny and must take care of him as he recovers. But when Brand takes over a character, chaos is sure to ensue. His “Easter Bunny” ends up being the world’s worst houseguest. When asked what kids will think of his rendition of the beloved furry animal, Brand quipped to *Enews*, “I’ll make them do whatever I want. I’m gonna take their money. I’m going to mess with people’s lives. I’m going to own Easter!”

Switching gears, Brand segues into a character that seems to fit him perfectly. In *Arthur*, Brand reprises the role made famous by Dudley Moore in the ’80s, playing the drunken playboy who stands to lose his inheritance when his family learns he’s fallen for a woman who is not of their station. “I adored the original *Arthur*,” Brand told *CinemaBlend*. “Watched it loads. My dad loves it and used to quote stuff from it.” Brand also made sure he was able to use his comedic skills to put his own spin on the character. “I interfere with the script regardless of whether or not I know anything about it,” Brand said. “So if it was about ancient Muslim ceramics, I’d probably still express an opinion and expect to be heard! I improvised all the time. It’s one of the things that I think helps me to enjoy what I do for a living, to keep spontaneity.”

With their careers on the rise, these newlyweds seem destined to become a huge force in the industry. But like most famous couples who have budding careers, work often comes first. Amid rumors of a rocky marriage, reports say Brand and Perry are struggling to keep their marriage alive. The pair, who

married only a few months ago—on October 23 in a lavish ceremony in India—are said to be dealing with too much time apart. In order to nip things in the bud, Perry, who is on her candy-themed California Dreams Tour, and Brand are currently believed to be seeing a marriage counselor in an attempt to solve some difficulties.

But although fame can often be a relationship killer, it’s something Brand says he doesn’t want taking over his life. He insists fame isn’t “all that good,” in a documentary he’s making with Oliver Stone about happiness. “I’m famous now. I didn’t used to be, but when I was younger, I always wanted to be famous. I thought it would make me happy. But now I’ve got fame and some of the things that I thought would make me happy—it ain’t worked,” Wenn.com reports.

“I don’t want to say, ‘Lavish sympathy upon me.’ I can imagine what people will say—‘Wasn’t it as good as you anticipated?’” Brand continued. “Was it when you were single and all the sex and the boozing that was disappointing? Or is it really starting now that you are living in a mansion with three cats and Katy Perry? You have suffered. It’s just peculiar to me, a lad growing up in Essex, London, that I would attach such importance to becoming famous and things, and it’s not all that good.”

—Toni-Marie Ippolito

STARS

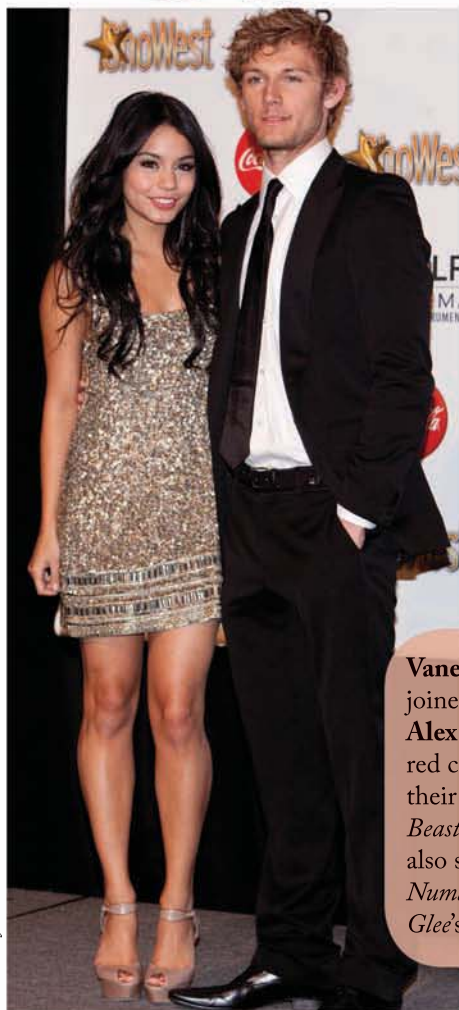

on set and **AROUND TOWN**

Lucy Hale and **Shay Mitchell**, stars of the smash hit *Pretty Little Liars*, ham it up on the red carpet while on a television press tour in L.A.

Justin Bieber and **Selena Gomez** may be trying to keep their romance under the radar for a reason: to avoid angry fans! But recent photos of the pair canoodling and kissing while on vacation in St. Lucia has caused many to oppose the union on Twitter. It seems many of Bieber's fans dream of keeping the mega super star for themselves!

Vanessa Hudgens joined her co-star **Alex Pettyfer** on the red carpet to promote their upcoming movie *Beastly*. Pettyfer, who also stars in *I Am Number Four*, was dating *Glee*'s Dianna Agron.

Shia LaBeouf and model-turned-actress **Rosie Huntington-Whiteley** show off their action skills as they slide down a wall during an action scene for *Transformers: Dark of the Moon*, which is set to hit theatres this summer.

Country music sweetheart **Taylor Swift** shows no signs of slowing down her career. Swift made headlines a few months ago when she dated Jake Gyllenhaal and was said to be devastated when he broke things off after a few weeks of dating. Recently, Gyllenhaal and Swift had dinner so he could apologize to her.

Minka Kelly and **Leighton Meester** show their sisterly affection at the premiere of their movie, *The Roommate*. While Kelly has been dating her sports star boyfriend, Derek Jeter, for a while, Meester has apparently found new love with her *Country Strong* co-star, Garrett Hedlund.

Amanda Seyfried and **Ryan Phillippe** are Hollywood's newest and cutest couple. The pair has been spending more time together in the public eye since getting together a few months ago. Seyfried, who previously dated her *Mamma Mia!* co-star Dominic Cooper, was first linked to Reese Witherspoon's ex-husband in October, after they met at Kate Hudson's Halloween party.

Fashionista **Camilla Belle** wore a daring outfit to the premiere of her movie, *From Prada to Nada*, about two spoiled girls who go from riches to rags. Despite rumors that Belle is dating Jake Gyllenhaal (much to Taylor Swift's dismay), a rep for Gyllenhaal claims the two are just friends.

Sucker Punch

Vanessa Hudgens knocks you out in her new action film.

She may have started out her career in the world of Disney, but Vanessa Hudgens has officially graduated from her days as the sweet Gabriella Montez in the successful *High School Musical* trilogy. And with a budding film career, Vanessa couldn't be happier to move things along.

"*High School Musical* was an incredible journey, so much fun, life-changing, and it made me grow and discover who I am as a person," Hudgens has said. "But you finish it and you're basically starting from scratch. I want to continue to grow and do different things that people would not expect. So it's back to basics every time. I could do another musical, I could play another sweet girl in a movie, but that's not really what I want to do."

Holding true to her word, Vanessa has ditched the sweet-girl act for her next role in *Sucker Punch*, which focuses on a young girl who's been sent to a mental institution by her evil stepfather and creates a dream world to escape from her dark reality. The film also stars Emily Browning (as Baby Doll), Abbie Cornish (Sweet Pea), Jena Malone (Rocket) and Jamie Chung (Amber). Vanessa, the raven-haired beauty, even has a cool name for her character: Blondie. As much as she kicks butt in the film, Vanessa had to work just as hard to get the part.

"I had to fight for *Sucker Punch*, which I'm excited about because I feel

like it's the first part that people are going to see me as someone like this, running around with a [big] gun," Vanessa said. "It's literally six movies put together in one. It's five strong, sexy women kicking ass and it's very empowering. Every day we do martial arts, train with Navy SEALs and shoot guns. It's very exciting."

Training for her character was just as challenging as getting the part was for her, but Vanessa was up for it. "I really loved it [training]. One of the most valuable things I learned was this thing we call 'finding the beast,'" she revealed to *Total Film*. "When you're working out and you're at the point where you think you're going to give up, it's that moment of turning your mind off that just makes you power through and know that you can do anything. I was dead-lifting, like, 180 pounds!" Now that's girl power.

LEIGHTON MEESTER - Aries, born April 9, 1986, Fort Worth, TX
 “Right now I don’t see the impossible,” Leighton has been quoted as saying. Just the kind of optimistic, can-do approach you’d expect from a double Aries, with both the sun and moon in that sign. It’s helped her do what so many actors cannot: parlay success on a television series into a big-screen career. She also has an Aries way of being multi-talented: actor, model, singer-songwriter, and enjoys creative writing. This is a banner year for career success, with no fewer than three major releases slated. Her love life seems to be more about rumor, such as the speculation around her *Country Strong* co-star Garrett Hedlund, than real-life romances. But that definitely will change in 2011.

STAR STRUCK

What the stars have planned for you

April ●

 **ARIES** (March 21 – April 20)

You’re no fool as April dawns. You have a keen eye for a fresh opportunity, and are not afraid to use it. Make sure you have a backup plan for the three-week period beginning March 30th. This extends to both your life and your computer, as mix-ups can occur. Meanwhile, a romantic scenario takes a turn that’s to your liking.

 **TAURUS** (April 21 – May 21)

Your life gets off the storyboard, and production is stalled. Keep your cool and you’ll get more done in a stop-and-start scenario than you think. People around you find your inspirations especially divine around mid-April. Entertaining around home base exactly suits your mood and style.

 **GEMINI** (May 22 – June 21)

Have you been miscast? Even though you feel a little out of sync, say yes to all social invitations. Listen up, expand your outlook, and learn new ways of doing things. Resist starting any new projects in April, when Mercury is retrograde until the 23rd. Do follow up on that prospect with a romantic lead potential, if you’re eligible.

 **CANCER** (June 22 – July 22)

You’re dreamy and giddy with spring, which could be due to that new love interest in your life. On the career front, your starry-eyed dreams come down to earth. From March 30th on, call for a re-write. Your income gets a nice boost from an unexpected source. Resist looking the gift horse in the mouth and just enjoy it.

 **LEO** (July 23 – August 23)

Finances grab the spotlight. Earning power is amplified, and your star is rising. Until April 23rd or so, though, most of what you will be offered won’t be up to your standards, so hold out for the best offer. If casting a new co-star, improvised lines work best. A big trip might be postponed, but will be worth waiting for.

 **VIRGO** (August 24 – September 23)

A new perk at work or an unexpected tax bill? Don’t let unexpected plot twists throw you. Despite some uncertainty, you will achieve your goals and strike a new deal or two. A change of scenery will do you good in April. You’ll also find some of the latent romance in your soul begins to bloom then.

 **LIBRA** (September 24 – October 23)

Gather ye roses—this impulse could lead you to take the leap with a new partner. But by April the bloom will be off more than one relationship, personal and professional, so put them to the test of time. Taking time for a massage or spa treat would be wise. But do avoid risky investments.

 **SCORPIO** (October 24 – November 22)

A nose-to-the-grindstone approach is most productive now. Resist the urge to take sides in office politics or indulge in gossip. Around April 1st a harmless flirtation around the water cooler could lead to something interesting. Take time for some fun in both love and life, and expect a happy surprise or two.

 **SAGITTARIUS** (November 23 – December 21)

Spring fever strikes, luring your thoughts far, far away. But travel and adventure are best sought closer to home, and new friendships are especially favoured. A higher-prestige position could be yours in April, if you’re willing to take on the weighty responsibility that comes with it.

 **CAPRICORN** (December 22 – January 20)

Home is where your heart is, yet you’re pulled in all directions. Find as much time to cocoon as possible and settle in for a while. Things are warm and cozy with your significant other, which is comforting. You can learn a lot in casual conversations, both on and off the job. Read between the lines.

 **AQUARIUS** (January 21 – February 18)

Your charisma is in full force, which creates a deluge in your inbox. You may have to scramble to keep up with the correspondence. Do answer some of those party invites, but schedule more downtime in April. Friends use your pad as a second home, which is fine with you.

 **PISCES** (February 19 – March 20)

Rough winds ride through your financial sector, but you still can find an ingenious way to make extra cash. Make saving some a priority. You begin to come into your own in April as Neptune enters your sign. Your charm and charisma will be off the charts, and your intuition helps put you in the right place at the right time.

Oscar-winning actress **REESE WITHERSPOON** and *Twilight* heartthrob **ROBERT PATTINSON** are heating things up romantically. Well, not in real life, but the pair is teaming up for the adaptation of the best-selling novel *Water for Elephants*, in which Reese plays the love interest of her (ten years her junior) co-star. Go Reese!

While Rob heats things up offscreen with his *Twilight* co-star Kristen Stewart, Reese is engaged to Hollywood agent Jim Toth.

Though the two actors are in happy relationships now, they've had their fair share of hookups and heartbreak as well.

1 TAYLOR SWIFT

The country crooner has been known to share all the details of her romances in her music. We just hope she tells the tale of her relationship with Jake Gyllenhaal in an upcoming album, because we're quite curious about what happened. After meeting in October and spending Thanksgiving weekend together, the pair spent the holidays apart, and were seen together again in January. Before Jake came along, Taylor dated *Twilight* cutie Taylor Lautner.

2 JAKE GYLLENHAAL

After being introduced in 2002 by his sister Maggie, Jake began dating Kirsten Dunst. They owned a home together before splitting two years later. After co-starring in the 2007 film *Rendition*, blonde beauty Reese Witherspoon and the adorable actor became a real-life couple, before their split in 2009. Jake was first seen with Taylor Swift in late October 2010, backstage at *Saturday Night Live*. They spent Thanksgiving together, but when they spent the holidays apart, speculation that their relationship had ended began, until they were spotted having dinner in Nashville in January.

3 RYAN PHILLIPPE

Ryan met Reese at her 21st birthday party, and after starring in the film *Cruel Intentions* with her, he proposed. Marriage, two children and seven years later, the couple split. Ryan was later spotted with 18-year-old actress Nikki Reed (*Thirteen*) at a club in Hollywood.

4 MARK WAHLBERG

After Wahlberg co-starred with Reese in the 1996 thriller *Fear*, the rumors began to fly that they were getting steamy on, and off, the screen. He began dating actress Jordana Brewster years later, in 2000, but his relationship with the *Fast and Furious* star ended after just a year.

5 KRISTEN STEWART

Kristen and her *Twilight* co-star Robert Pattinson denied rumors they were dating, but confirmed they were together to Oprah in May 2010.

Kristen dated actor Michael Angarano from 2006 to 2009, but the pair split when it seemed things were heating up with Robert.

6 NATALIE PORTMAN

After Portman spent the night chatting with Robert Pattinson at a pre-Oscars party in 2009, rumors flew that she and Rob were an item, especially after he publicly proclaimed his admiration for her. Natalie was once linked to Jude Law when the two starred in *Closer*, but she's now engaged to choreographer Benjamin Millepied, and pregnant with his child.

7 ANNE HATHAWAY

Anne recently starred alongside Jake Gyllenhaal in the movie *Love and Other Drugs*, leading to speculation that they're a couple. While she's reportedly dating actor Adam Shulman, we think she and Jake would make a cuter match.

8 KIRSTEN DUNST

Kirsten dated Jake in her early 20s, but the couple split after two years. She then dated British musician Johnny Borrell in 2007, before they split a year later. She's since been linked to Justin Long and Jason Boesel.

9 JUDE LAW

Jude and Sienna Miller have an ongoing history that never seems to cease. The actors got engaged in 2004, parted in 2006 and reunited in 2009. They recently split again, saying the relationship has run its course.

10 JOSH HARNETT

Josh met Kirsten Dunst while filming *The Virgin Suicides*, but it wasn't until years later that they were spotted hooking up around L.A. After his breakup with actress Scarlett Johansson in 2006, Josh hooked up with *The O.C.* actress Mischa Barton while they were both at a club in London. He hasn't had a serious girlfriend since.

11 DEREK JETER

The baseball star has game both on and off the field. His long list of Hollywood hookups includes Mariah Carey, Victoria's

Secret model Adriana Lima, Vanessa Minnillo, Jessica Alba and Scarlett Johansson. He dated actress Jordana Brewster in 2003, Jessica Biel in 2006, and is now dating *Friday Night Lights* hottie Minka Kelly.

12 CAMERON DIAZ

After starring as an onscreen couple in *The Holiday*, Cameron and Jude Law were romantically linked. At the time, Diaz had split from pop star Justin Timberlake. Before Justin and Jude, Cameron dated another "J," actor and musician Jared Leto, for four years.

13 JESSICA BIEL

After her split with Chris Evans, Biel had a brief romance with baseball star Derek Jeter, before beginning a romance with pop star Justin Timberlake. She's been with the actor and musician since his 2007 split from Cameron Diaz.

14 BRODY JENNER

The Hills star has been known to hook up with his fellow reality stars, such as Lauren Conrad and Kristin Cavallari, but he was hooked up with other reality television stars (and socialites) Paris Hilton and Nicole Richie. He's also recently been linked to Canadian cutie Avril Lavigne, since her split with ex-husband Deryck Whibley.

15 JUSTIN TIMBERLAKE

Besides his long-term relationships with Britney Spears, Cameron Diaz and Jessica Biel, Justin's Hollywood hookups have included Scarlett Johansson, who appeared in his music video for "What Goes Around Comes Around," and heiress Paris Hilton.

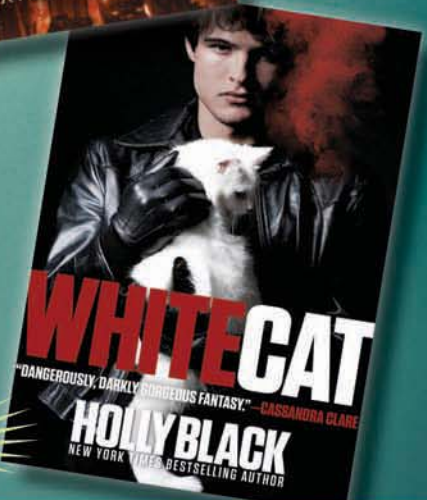

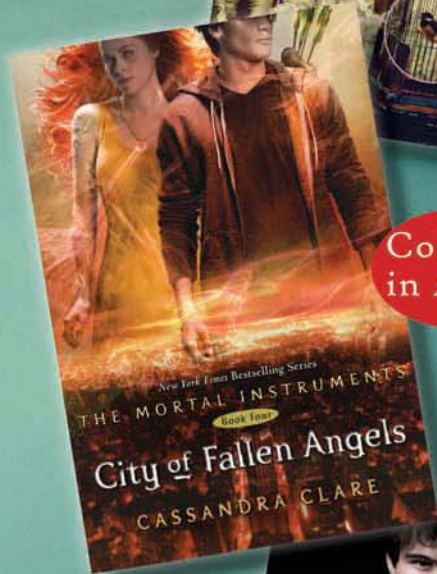

16 SCARLETT JOHANSSON

The actress dated Jared Leto in 2004 for a year, before she dated actor Josh Hartnett for two. She then hooked up with Justin Timberlake while working on a music video with him, but married actor Ryan Reynolds in 2007. Recently divorced due to careers that constantly separated them, Scarlett is now single, so stay tuned!

HAMMER'S MUSIC BLOG

Those who know me, know there aren't many things I'm more passionate about than music. I love all kinds. Especially CANADIAN music!

As a music lover, I have March 27th marked down on my calendar, as it's the day of the 40th annual Juno awards. The Junos celebrate the best in Canadian music, and to make this event even better, it will be held in my own backyard at the Air Canada Centre, in downtown Toronto.

The 2011 Junos feature some amazing local talent, specifically Drake (six nominations) and Justin Bieber (four nominations).

At Z1035, we are proud to support Canadian talent. In fact, we were one of the first stations in Canada to play Justin Bieber! It's amazing to see how the careers of both of these young men have taken off. They are massive artists not only in Canada but also around the world. They produce hit after hit.

And to make things a bit more interesting, they are going head to head in a few categories, including Album of the Year and Fan Choice Award. Make sure you keep listening to Z1035 for your chance to win tickets to this year's Juno Awards. Mark the date down, it should be a great night!

The Kennedys

The new mini-series based on one of America's greatest political families hits the small screen, against the odds.

As loved and admired as they were, the lives of the Kennedys had no shortage of drama. The rumored affairs of late President John F. Kennedy only heightened the intrigue that surrounded him and his family. Not only did he turn into an iconic figure, but his wife, Jacqueline Kennedy, made waves of her own with her fashion sensibilities. She altered the way women dressed, and her effortless chic made her an icon as well. Their lives were like royalty and thus given the famous moniker, "Camelot."

So it's no surprise that their family legacy would make for great movie drama—but drama not everyone wanted to see, namely the remaining members of the Kennedy family, including Caroline Kennedy and Maria Shriver. Under pressure from the Kennedy family to can the series, U.S. History Channel, which produced the mini-series, announced it would no longer air the series, stating that it was "not a fit for the brand." Going even further, former JFK presidential advisor Theodore Sorensen openly attacked an early version of the script, calling it "vindictive" and "malicious" in a front-page *New York Times* piece.

But with the buzz it conjured, it was hard to keep it under wraps. *The Kennedys*, filmed at Toronto's Dufferin Gate Productions and starring Greg Kinnear as the former U.S. president and Katie Holmes as his wife Jackie, found a home in Canada on

History Television and was picked up by ReelzChannel in the U.S.

The story of *The Kennedys* begins on November 8, 1960—Election Day—as the American people face the decision of voting for charismatic Senator John F. Kennedy or his more experienced opponent, Vice President Richard M. Nixon, for president. Through flashbacks to the '30s and the '40s, *The Kennedys* explores the achievements, regrets, loyalties and betrayals that surrounded John, Bobby and Joe Sr., as well as the women who unconditionally supported them.

"I worked as hard as I could, because I loved her," Holmes told *Elle* about playing Jackie. "On-set there was this feeling that we had to create something very special, because these people were very special. [The Kennedys] were like movie stars. There was such professionalism to their public image. [Tom] watched everything with me; he found it fascinating."

As a mother, Katie Holmes could also strongly identify with Jackie and her values. "I didn't realize that she had lost a child in August and then [Jack] was assassinated in November. I couldn't believe it. She had so much strength. I loved her love of family, how important it was for her to be a good mother."

The Kennedys four-part movie event begins on April 10, 2011 at 9 p.m. ET/PT on History Television.
